

PL-600T00-A: Microsoft Power Platform Solution Architect

Days: 4 Days

Prerequisites: This course is recommended for those at an advanced developer level.

Audience: Senior Consultants (both functional and technical) who aspire to be Solution Architects, or current Solution Architects who are new to the role.

Description: The Solution Architect is responsible for the successful design, implementation, deployment and adoption of an overall solution. The Solution Architect ensures that the solution meets the customer's needs now and in the future. In this course, students will learn about decisions a Solution Architect makes during an implementation, covering security, integrations, Power Apps architecture, Power Automate architecture, and more. This course is designed to give you an introduction to the Solution Architect role.

OUTLINE:

MODULE 1: Becoming a solution architect for Dynamics 365 and Microsoft Power Platform

MODULE 2: Discover customer needs as a Solution Architect for Dynamics 365 and Microsoft Power Platform

MODULE 3: Propose a solution as a Solution Architect for Microsoft Power Platform and Dynamics 365

MODULE 4: Work with requirements for Microsoft Power Platform and Dynamics 365

MODULE 5: Perform fit gap analysis

MODULE 6: Solution Architect series: Implement project governance for Power Platform and Dynamics 365

MODULE 7: Solution Architect series: Power Platform architecture

MODULE 8: Solution Architect series: Model data for Power Platform solutions

MODULE 9: Solution Architect series: Evaluate Power Platform analytics and AI

MODULE 10: Solution Architect series: Explore Power Apps architecture

MODULE 11: Solution Architect series: Plan application lifecycle management for Power Platform

MODULE 12: Explore Power Automate architecture

MODULE 13: Solution Architect series: Model security for Power Platform solutions

MODULE 14: Solution Architect series: Implement integrations with Power Platform

MODULE 15: Solution Architect series: Explore Microsoft Copilot Studio

MODULE 16: Solution Architect series: Explore robotic process automation

MODULE 17: Solution Architect series: Testing and go-live
